---

Do you struggle to get in and out of the bath? Worried about slipping or falling? Qualter Plumbing are here to help. We can supply and install a range of walk-in showers and baths, allowing you to bathe in comfort and safety once again. Most walk-in showers and baths can be installed in the same space as your old fittings, with no mess, fuss or re-tiling and without costing you a fortune. The walk-in showers and baths we install are all packed with safety features and have comfy integral seats to make bathing an easy and relaxing pleasure. Whether your bathroom is small or spacious, there are options available and we are happy to measure up and help you determine the type and style you require.

Walk-in showers and baths can usually be fitted within a day. The waterproof wall paneling means that no tiling is required. Qualter Plumbing are qualified installers of Showerwall panelling systems which deliver a smooth, watertight finish that is tough, hard-wearing, stain resistant and totally hygienic. Showerwall paneling comes with a watertight 15 year guarantee.

For more information about easy-access showers and baths, please [contact us](#) .
